

Designação do projeto | **Cohesive - One Health Structure In Europe**

Código do projeto | **773830-Choesive**

Objetivo principal |

Região de intervenção |

Entidade beneficiária | **Instituto Nacional de Investigação Agrária e Veterinária, I.P.**

Data da aprovação | **2019/07/01**

Data de início | **2019/07/01**

Data de conclusão | **2021-12-31**

Custo total elegível | **13 201,25 €**

Apoio financeiro da União Europeia | **5 808,55€ - 44%**

**Objetivos, atividades e resultados esperados**

Stimulating sustainable One Health approaches at the national level within EU countries, focussing on strengthening human-veterinary collaboration with respect to early signalling and assessing zoonotic threats.

Roadmap towards an EU zoonoses risk-assessment or risk-analysis structure

Design and test a common platform for the collection and analysis of surveillance and outbreak data on foodborne zoonoses.

Capacity building within and between EU countries at several levels within the area of zoonotic diseases
